

Remote Solutions

The solution that allows us to stay in contact with you and advise you on your process or production, for example, despite travel restrictions and social distancing.

110% in terms of collaboration and communication

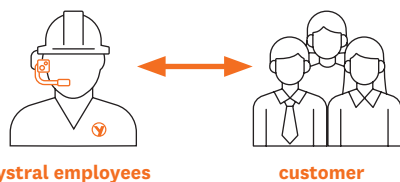

Augmented reality enables a service technician or fitter to interact on site with an ystral expert by voice or chat, or via screenshots, incl. reporting with smartglasses or a smartphone.

What application options are available?

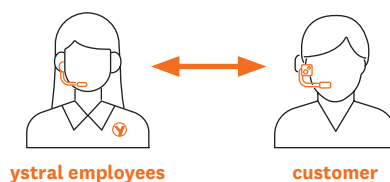

What are the possible uses?

Broadcasting

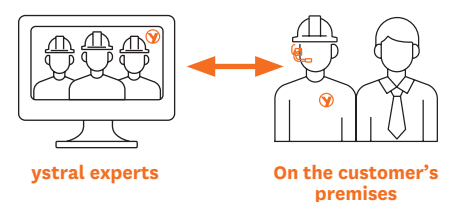

ystral employees using smartglasses or a smartphone enable you to follow the job and interact.

Remote support

ystral follows the work on-site and can assist you with maintenance, repairs, troubleshooting.

Own support

ystral experts at the respective workplace give instructions to a ystral employee on your premises.

What are the advantages for you?

- ✓ Contact-free, global support
- ✓ Faster ability to react
- ✓ Strong learning effect
- ✓ Saves costs and protects the environment
- ✓ All-inclusive solution

We look forward to working together with you!
